Experience

THE WALT DISNEY COMPANY, CHICAGO, ILLINOIS

Data Engineer, Personalization & Experimentation

Dec. 2021 - Present

- Supporting the data pipeline that powers ESPN's recommendation engine with automation and data migration efforts.
- Delivering critical reporting metrics to executive management from custom websites built with Svelte.
- Using Svelte and D3.js to develop a JavaScript library of interactive data visualization chart components.
- Using Python to leverage the Adobe Analytics API and perform object-relational mapping for generating critical SQL queries.
- Building ETL pipelines involving Databricks, Apache Airflow, and Snowflake to populate relational and non-relational databases.

NAVARC, CHICAGO, ILLINOIS

Data Engineer

Mar. 2021 - Dec. 2021

- Developed a chatbot using Python and several Google Cloud products to alert team members of data accuracy issues.
- Leveraged the Google Cloud API with Python to instantaneously launch/terminate SQL scripts.
- Wrote templated SQL queries within Google BigQuery to be onboarded with each new client.

NINJAHOLDINGS, CHICAGO, ILLINOIS

Data Management Associate, Operations

Oct. 2019 - Feb. 2022

- Delivered weekly reporting metrics to the CEO as the primary SQL developer for the calling and communications center.
- Designed efficient pipelines and actionable dashboards using materialized views within a PostgreSQL data warehouse.
- Calculated critical performance metrics for 13 legal audits to maintain state lending licenses.

PAIN SPECIALISTS OF AMERICA, CHICAGO, ILLINOIS

Data Intern

Sept. 2019 - Dec. 2019

- Built dashboards using Microsoft Power BI to help doctors monitor patient and prescription trends.
- Wrote DAX expressions to process raw data into calculated columns and measures for Microsoft Power BI.

HIGHEREDUCATION.COM, SEATTLE, WASHINGTON

Marketing Analyst

Feb. 2017 - Feb. 2018

- Leveraged PostgreSQL tools within pgAdmin to build target segments for 10 email marketing campaigns per week.
- Automated the marketing workflow with custom macro functions, increasing overall production by 100%.
- Delivered monthly quantitative reports to assess progress and set benchmarks for email marketing campaigns.

Data Certifications

AMAZON WEB SERVICES (AWS)

AWS Certified Cloud Practitioner

Feb. 2021

- Acquired fundamental skills to demonstrate an understanding of Amazon Web Services (AWS).

METIS
